Vision

Our vision is to create an exemplary Islamic school that nurtures well-rounded individuals who excel academically and uphold Islamic values and contribute positively to society.

Recite, and your Lord is the Most Generous. Who taught by the pen. Taught man what he knew not.

Quran 96:3-5

Mission: Our mission is committed to the following principles

- Prepare our children to become Muslim role Models, exemplary citizens in the community, and to excel in their professional careers.
- Inculcate in our children Islamic Values, habits, attitudes, high moral and ethical standards, tolerance, and patience that are characteristics of a good Muslim based on Quran and Sunnah.
- Teach our children to read and understand the message of the Quran and Sunnah of Prophet Muhammad (ﷺ) and to apply these in every aspect of their personal and professional lives.
- Help students excel with academic skills.
- Engage the students in a rich curriculum to acquire the skills and love of effective learning.
- Extend to the greater community, through partnership with parents a genuine appreciation of the value of excellence in education.
- Empower the faculty and staff through mutual respect, ongoing training, strong leadership, and sufficient resources to implement an educational program of high excellence.
- Solve problems creatively through project based learning and extracurricular activities.
- Instil ethical values and moral judgment among our young minds, is an intrinsic part of UA learning culture, imbuing a sense of right and wrong in them from an early age.
- Children will develop various levels of empathy at different ages. The development of empathy is necessary for compassionate behavior to develop as well. Teaching compassion, therefore, starts from the beginning at UA.
